

PETER TEA

613-501-1108 ◊ petertea96@gmail.com ◊ petertea.netlify.app ◊ Ottawa, Canada

WORK EXPERIENCE

Data Scientist - Sports Media Technology

Jun 2021 - Present

- Design, test and implement machine learning algorithms to generate digital story-telling products.
- Collaborate with business and creative teams to define & develop insights and product enhancements.

Quantitative Analyst Intern - Canada Revenue Agency

Sep 2020 - Dec 2020

- Implemented hierarchical clustering algorithms on corporation data to estimate tax evasion metrics.
- Presented results and summaries of complex data to managers and advised on future strategic plans.

Data Science Intern - Aquatic Informatics

May 2020 - Aug 2020

- Applied Neural Network predictive algorithms on time series data; recommended changes to boost user experience and trust in using novel black-box tools.
- Visualized KPI trends with tidy dashboards, allowing managers to make prompt data-driven decisions.

Research Data Consultant - SFU Research Commons Library

Sep 2019 - Apr 2020

- Provided individual and group consultations to graduate researchers on data wrangling, visualization and statistical analysis (eg: ANOVAs) to advance ongoing research project deliverables.
- Assisted in **R** and **Python** workshops to effectively communicate programming concepts for beginners.

Junior Policy Analyst - Transport Canada

Jul 2018 - Apr 2019

- Reported global trends in transportation safety to senior management, impacting policy changes.
- Collaborated with stakeholders to compile informative risk assessment reports and addendum notes.

EDUCATION

Simon Fraser University

2019 - 2021

Master of Science in Statistics

Awards: Natural Sciences and Engineering Research Graduate Scholarship, Dean's Fellowship

University of Ottawa

2014 - 2019

Honours Bachelor of Science - Biostatistics (*Summa Cum Laude*)

Award: Natural Sciences and Engineering Undergraduate Research Scholarship

DATA PROJECTS

Master's Thesis: Analysing Tennis Serve Decisions with Bayesian Models

Sep 2020 - Jul 2021

- Fit high-dimensional Bayesian models predicting the likelihood of player decisions in tennis matches.
- Automated data collection from web-scraping plus APIs and catalogued features into a tidy database.

Analytics Content Contributor - <http://on-the-t.com/>

Jun 2019 - Present

- Visualized serve strategy patterns with shot density heatmaps: [A Spatial Exploration of Serve Patterns](#).
- Predicted ace rates with Regression models, and summarized trends with interactive visualizations.

TECHNICAL SKILLS

Statistical Tools:

R (dplyr, ggplot2), Python (pandas, plotly), SQL, SAS

Other Tools:

Git, JavaScript (D3.js), HTML, CSS, BASH, LaTeX, AWS, Markdown
